# TIME IS RELATIVE, MAKE IT YOURS

Why do we think that time is passing faster than ever? We maintain a frenetic pace of life, engaging in numerous activities in a short period, often without considering the quality of life. Even though we live longer, do we truly live more fully? We start each day in a rush, and yet we long for extra hours in the day.

Faced with the craziness of the contemporary world, the philosophy of Slow Living has arrived as an escape route. This perspective advocates for a lifestyle that allows us to set our own rhythms, paying mindful attention to the present moment, and enjoying our activities in a more leisurely manner. More and more people are embracing this philosophy, recognising that a balance between slowness and speed is a profound change that is gradually being integrated into society.

# NOON FEELING

Explore how a moment of stillness at lunch time can transform your day, allowing you to recharge your batteries and appreciate this pause in your daily routine as a sensory experience. Embrace this moment as a chance to revitalise your mind and nourish your well-being.

# RELAX AREA

Immerse yourself in your relaxation zone, where all hurries fade away and inner peace takes centre stage. On this journey towards a more serene life, you will learn how to appreciate the small moments that the day give you, finding beauty in simplicity and cultivating calm amid the daily hustle and bustle.

Slow Living

Slow Living

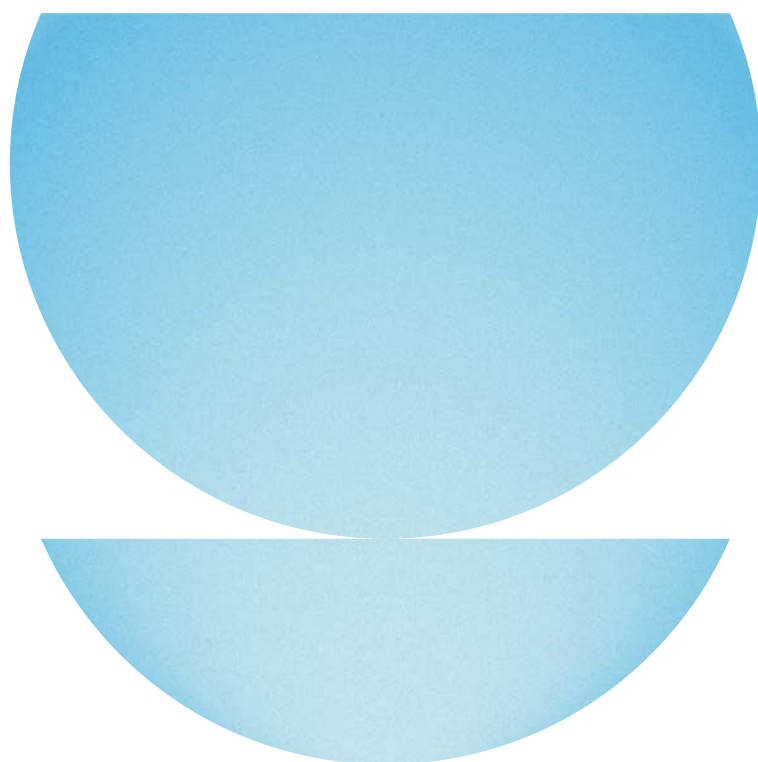

# POOL TIME

Immerse yourself in an oasis of tranquility, leaving behind worries and allowing yourself to fully enjoy the present moment. Find out how pool time can become a rejuvenating ritual that revitalises both body and mind.

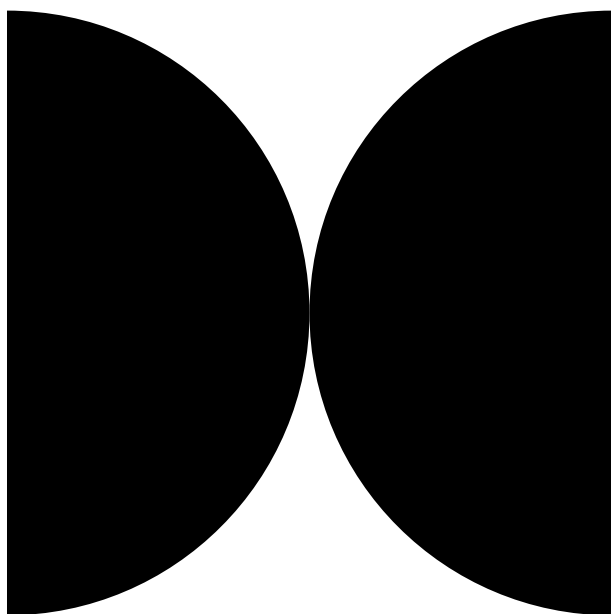

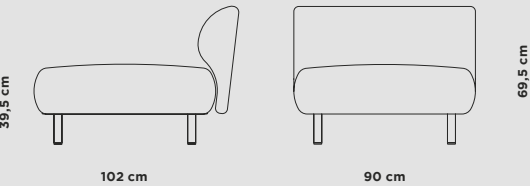

# PRODUCT PHOTOGRAPHY

# SOFAS

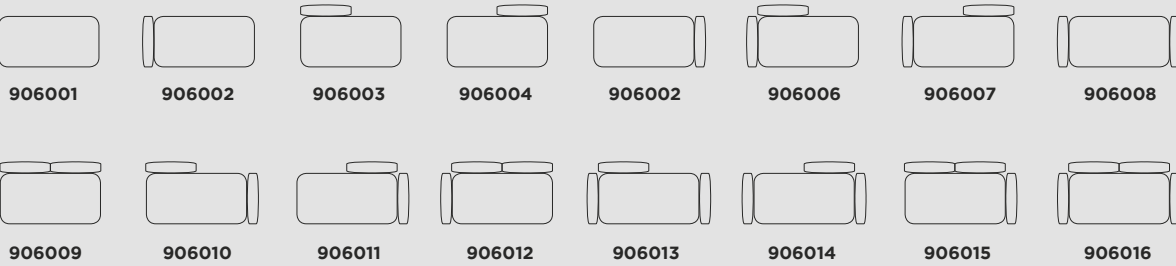

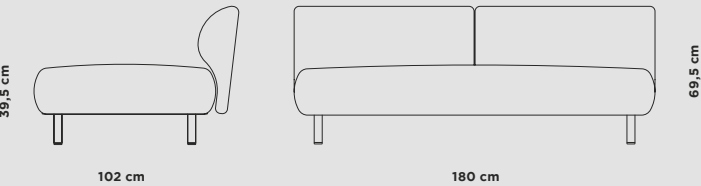

## SALINAS

This collection of modular sofas has been designed by Santiago Sevillano, its structure is completely made of stainless steel. Its main feature is its flexible system of modules in three sizes, which can be configured with or without backrests and allow a wide range of combinations. The upholstery is removable with the interior in water-repellent polyurethane foam of different densities (D-25 hard and D-33 soft for the seat and D-65 in the case of the injected backrest) and the interiors are protected by a water-repellent polyester covering.

### Module 1

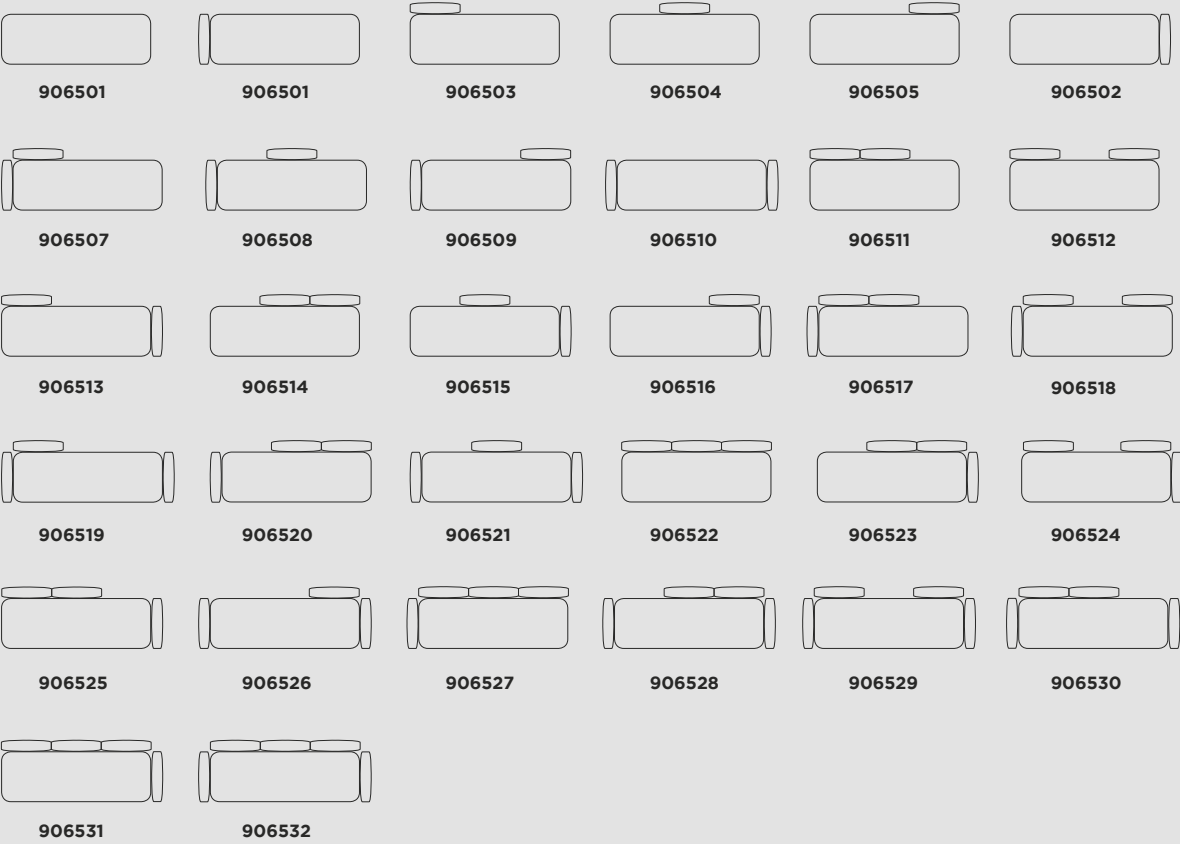

### Module 2

SOFAS

Module 3

# SOFAS

---

**NANSA**

**REF. 9030**

Armchair designed by Santiago Sevillano, made entirely of stainless steel. Removable seat with quick-dry polyurethane foam (D-30 Dry Feel + soft foam) and polyester fibre inside.

---

**NANSA**

**REF. 9031**

Two seater sofa designed by Santiago Sevillano, made entirely of stainless steel. Removable seat with quick-dry polyurethane foam (D-30 Dry Feel + soft foam) and polyester fibre inside.

---

**NANSA**

**REF. 9032**

Three seater sofa designed by Santiago Sevillano, made entirely of stainless steel. Removable seat with quick-dry polyurethane foam (D-30 Dry Feel + soft foam) and polyester fibre inside.

# CHAIRS

---

## BAGA

### **REF. 9084**

Chair made entirely of stainless steel. Its seat is removable, filling of quick-dry polyurethane foam (D-32 Dry Feel) and polyester fibre. The backrest is made of polyester rope available in various colours and includes a support cushion. Stackable up to four chairs.

---

## BAGA

### **REF. 9083**

Chair made entirely of stainless steel. Its seat is removable, filling of quick-dry polyurethane foam (D-32 Dry Feel) and polyester fibre. The backrest is made of polyester rope available in various colours. Stackable up to four chairs.

---

## SORELL

### **REF. 9080**

Chair made entirely of stainless steel. Its seat is removable. The interior (seat and backrest) is filled with quick-dry polyurethane foam (D-30 Dry Feel). Stackable up to six chairs.

# CHAIRS

---

## SORELL

### REF. 9085

Chair with arms made entirely of stainless steel. Its seat is removable. The interior (seat and backrest) is filled with quick-dry polyurethane foam (D-30 Dry Feel). Stackable up to six chairs.

# BENCHES

---

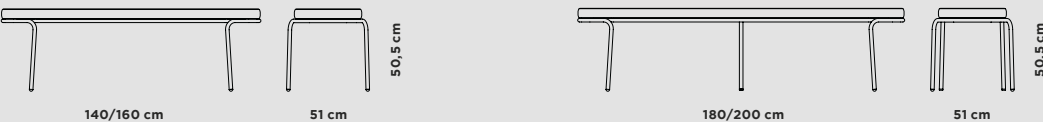

## ABRIL

### REF. 910000

Bench without backrest made entirely of stainless steel.

## ABRIL

### REF. 910010

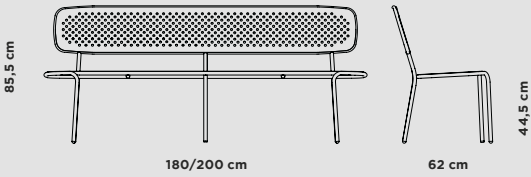

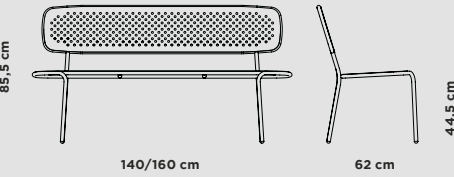

Bench without backrest made entirely of stainless steel with removable upholstered seat (6 cm). Filling of water-repellent polyurethane foam (D-30) with antibacterial treatment.

# BENCHES

---

## ABRIL

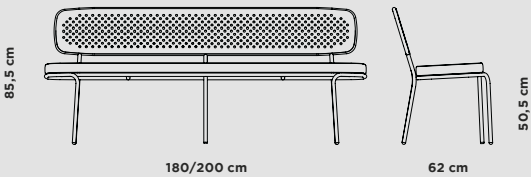

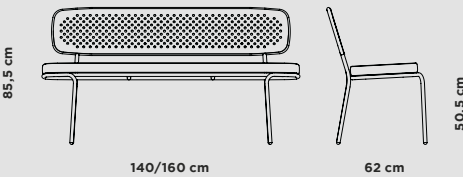

### REF. 910020

Bench with backrest made entirely of stainless steel.

---

## ABRIL

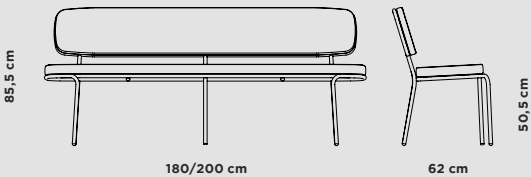

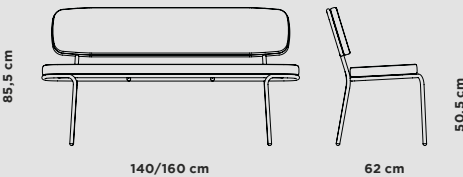

### REF. 910030

Bench with backrest made entirely of stainless steel with removable upholstered seat (6 cm). Filling of water-repellent polyurethane foam (D-30) with antibacterial treatment.

---

## ABRIL

### REF. 910040

Bench with backrest made entirely of stainless steel with seat (6 cm) and backrest (4 cm) upholstered and removable covers. Filling of water-repellent polyurethane foam (D-30) with antibacterial treatment.

# STOOLS

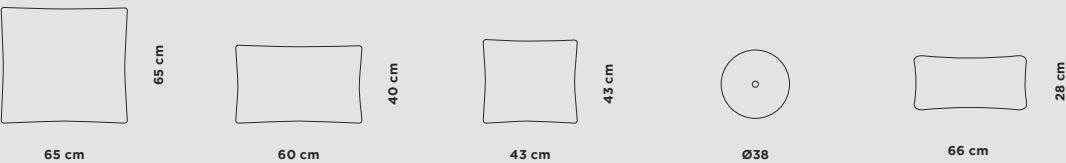

## NANSA

REF. 9028 (H65) / REF. 9029 (H80)

Stool designed by Santiago Sevillano. With its frame made entirely of aluminium, it has a high lightness. Removable fabric, interior made of quick-dry polyurethane foam (Dry Feel) and polyester fibre inside.

# CUSHIONS

REF. 9067

REF. 9068

REF. 9048

REF. 9069

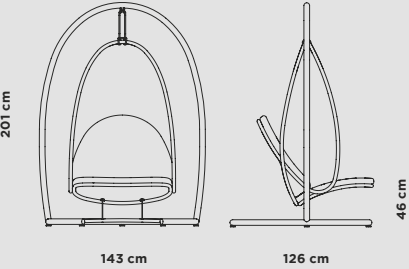

REF. 9049

# SWING CHAIRS

---

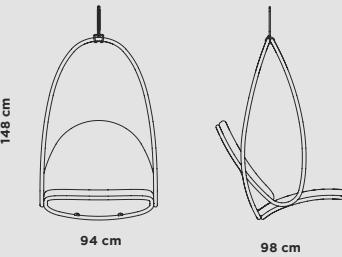

**NIU**

**REF. 9081**

Swing chair with base designed by Santiago Sevillano, made of stainless steel. Removable fabric. The interior (seat and backrest) is filled with quick-dry polyurethane foam (Dry Feel).

**NIU**

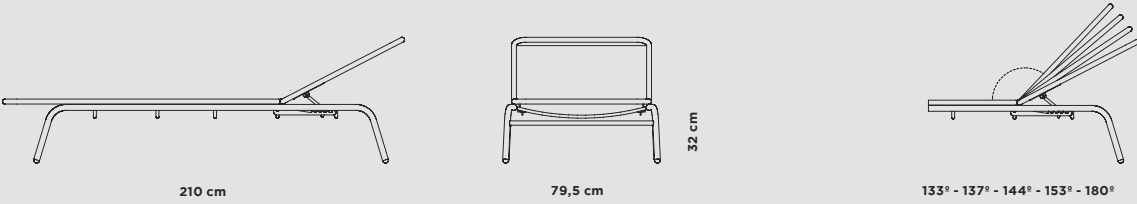

**REF. 9082**

Swing chair designed by Santiago Sevillano, made of stainless steel. Removable fabric. The interior (seat and backrest) is filled with quick-dry polyurethane foam (Dry Feel).

# LOUNGERS

---

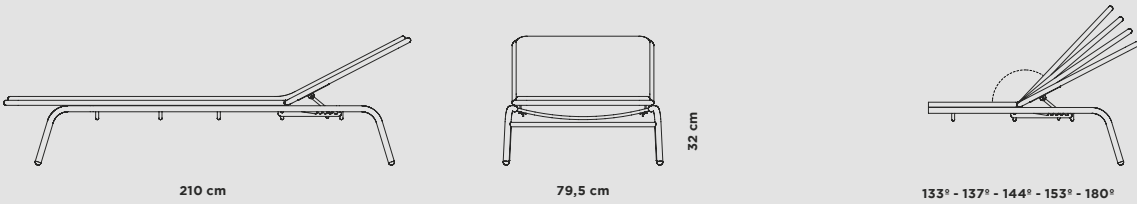

**MEL**

**REF. 907200**

Lounger made entirely of aluminium. The seat base is Batyline®. It is stackable.

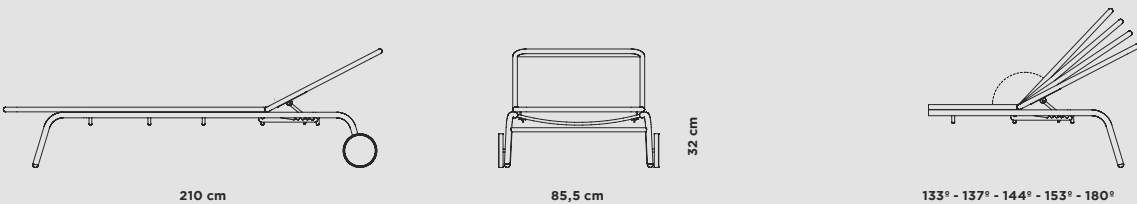

**MEL**

**REF. 907201**

Lounger made entirely of aluminium with a removable cushion. Filling of water-repellent polyurethane foam (D-30 + D-23 soft) with antibacterial treatment. The seat base is Batyline®. It is stackable.

**MEL**

**REF. 907210**

# LOUNGERS

---

**MEL**

**REF. 907211**

Lounger with wheels, made entirely of aluminium. Removable cushion. Filling of water-repellent polyurethane foam (D-30 + D-23 soft) with antibacterial treatment. The seat base is Batyline®. It is stackable.

---

**MEL**

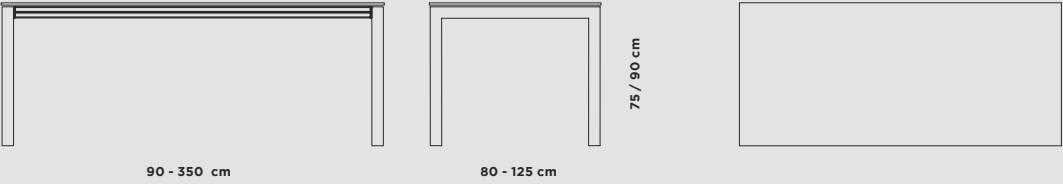

**REF. 907221**

Removable headrest whose interior is protected by a water-permeable polyester cover (D-30 hard).

# TABLES

## SALVIA

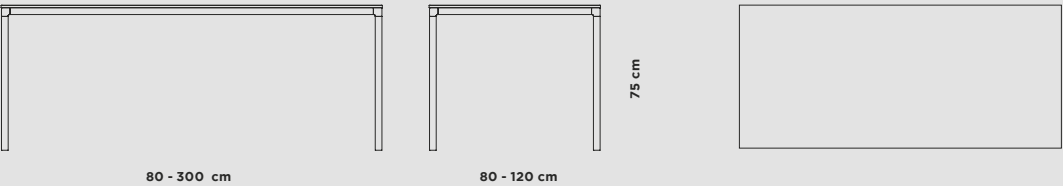

**REF. 9001 / 9002 / 9003**

Fixed and extending table. All metallic elements of its structure are made of stainless steel. Table top made of ceramic laminated with glass.

**\* More information on sizes in the price list**

## BRISE

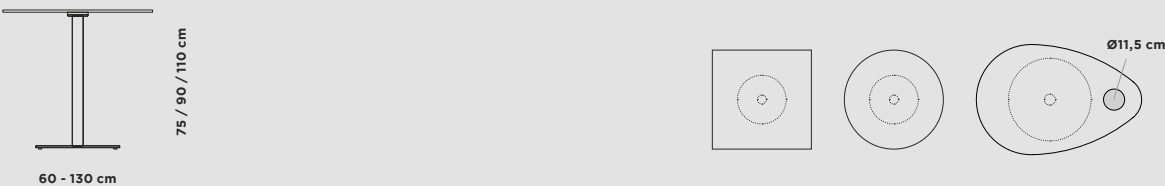

**REF. 9093**

Fixed table with top made of ceramic laminated with glass. All metallic elements of its structure are made of stainless steel. Made of aluminum (structure) and stainless steel (reinforcements and screws).

**\* More information on sizes in the price list**

## LEMON

**REF. 9035 / 9036 / 9037**

Central column table. All metallic elements of its structure are made of stainless steel. Table top made of ceramic laminated with glass.

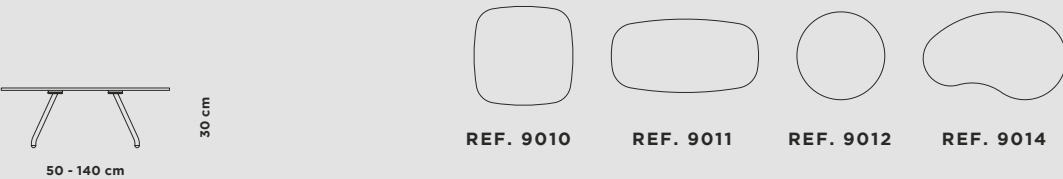

**\* More information on sizes in the price list**

- Square and round tops.
- Round base:  
(Ø45, Ø50 and Ø65).
- Avocado shaped top.  
Option: Ø11,5 cm cutout.

## TABLES · Coffee tables

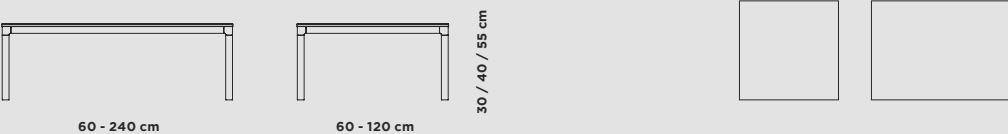

### NANSA

Collection of coffee tables designed by Santiago Sevillano with aluminium structure. It is available in different sizes and forms. Table top made of ceramic laminated with glass.

\* More information on sizes in the price list

### BRISE

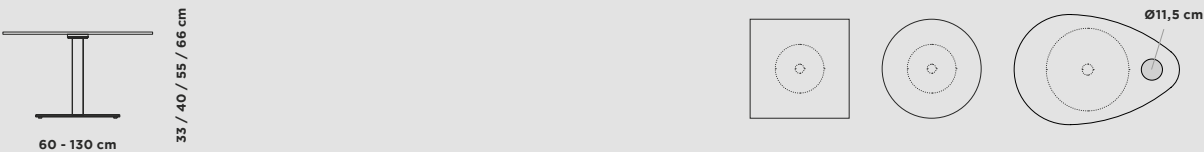

### REF. 9095

Coffee table available in three different heights (H30 / H40 / H55). Made of aluminum (structure) and stainless steel (reinforcements and screws).

- Square and rectangular tops.

\* More information on sizes in the price list

### LEMON

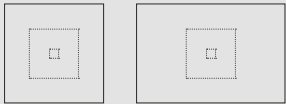

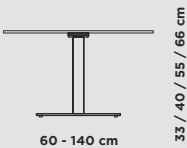

### REF. 9042 / 9043 / 9044

Central column table available in four different heights (H33 / H40 / H55 / H66). All metallic elements of its structure are made of stainless steel. Table top made of ceramic laminated with glass.

- Square and round tops.  
- Round base:  
(Ø45, Ø50 and Ø65).  
- Avocado shaped top.  
Option: Ø11,5 cm cutout.

TABLES · Coffee tables

ICE

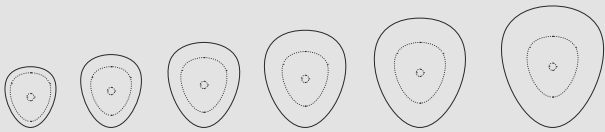

REF. 9045 / 9046 / 9047

Central column table available in four different heights (H33 / H40 / H55 / H66). All metallic elements of its structure are made of stainless steel. Table top made of ceramic laminated with glass.

- Square and rectangular tops.
- Square base: (45x45, 53x53 and 60x40).

\* More information on sizes in the price list

STONE

REF. 904201 / 904202 / 904203

50X42 60X50 70X59 80X67 90X75 100X84

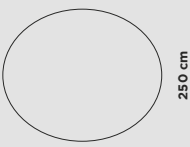

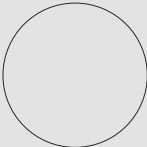

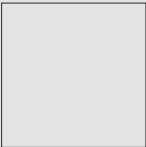

Central column table available in four different heights (H33 / H40 / H55 / H66). Table top made of ceramic laminated with glass.

- Stainless steel tube Ø6 cm.
- Stainless steel base: (40x33, 45x38 and 50x42).

\* More information on sizes in the price list

RUGS

MILPA

REF. 9090 / 9091 / 9092

Composition: 100% solution dyed polypropylene. The back side has a latex coating to ensure a non-slip surface. Thickness: 6 mm. Density: 2,8 kg/m<sup>2</sup> Manufacture: 100% in Spain on a mechanical loom. The production of the polypropylene yarn is done with minimal environmental impact and the subsequent manufacture of the rug generates textile waste that is 100% recyclable.

Liquid repellent and stain resistant. Mold and mildew resistant. UV resistant. Antistatic and resistant to thermal shock: does not change its properties when exposed to sudden temperature variations. Fast drying: Suitability for use in unforeseen humid conditions. Maintenance and cleaning: Very easy to clean, even with bleach without losing colour.
